

# STRASSACKER

## PROJECT

Strassacker Project GmbH & Co. KG is a renowned company with experience and success in planning, development, engineering and construction, specializing in custom architectural projects. The company is a competent partner for architects and builders. For major international projects, we manufacture power-operated doors and windows in special sizes as well as façade elements and various other decorative architectural elements made of high-quality materials (especially bronze) for public spaces.

**To strengthen our team, we are looking for a**

## Design Engineer

**(f/m/d, permanent full-time)**

### **Your tasks:**

- Creation of designs, drawings and parts lists in the 3D-CAD system (Solid Works)
- Management of CAD documents (models and drawings) in the PDM-System
- Close cooperation and coordination of the designs with other departments such as Manufacturing, Technical Writing, Operations Scheduling, Purchasing, Quality Assurance and external design partners
- Technical coordination with suppliers
- Contact person during assembly inhouse and during the installation and commissioning of the projects

### **Your profile:**

- Sound technical education (studies specializing in mechanical engineering or civil engineering or technician with comparable qualifications)
- Several years of experience with production-oriented design in CAD systems (SolidWorks desirable)
- Technical understanding of sheet metal constructions, welded constructions, weld preparation and pneumatics is an advantage
- Knowledge of metal/steel construction is advantageous
- Knowledge in the selection and design of machine elements and components
- Knowledge of the Machinery Directive and the CE process flow is an advantage
- Good knowledge of German and English spoken and in writing
- MS Office user knowledge
- Practical knowledge and project experience
- Flexibility, communication and teamwork skills
